BASKET RAKE

BR2030-6 / BR2030-7

When it comes to crafting the perfect hay, you need a balance of **quantity and quality**. At Sitrex, we understand that every stage of the process matters. That's why, since 1970, we've been innovating to help you preserve the feed value of your forage.

From the moment you start **harvesting** to the final **bale wrap**, Sitrex is your trusted partner. We're not just experts: we're farmers at heart and we understand the challenges you face. Together, we'll master every shade of green and gold, ensuring your forage is the best it can be.

Choose Sitrex's agricultural machinery to turn your **haymaking** into a success.

BASKET RAKE

BR2030-6 / BR2030-7

Clean harvest, Better quality forage!

Better forage means more milk production and healthier animals. The quality of the forage is fundamental for animal health and for good company revenues.

The Basket Rake BR2030 rakes cleanly and efficiently using quick and easy controls. **Farmers who want to produce high quality hay find in this type of rake the right machine, ideal for their needs.** The basket rake makes clean swaths thanks to the rolabar technology that let the teeth collect forage, leaving behind the impurities. On the field there are no remains behind because the baskets float broadly and are transported on a tandem axle. The operator can control all the rake functions from the electro-hydraulic control panel.

BASKET RAKE

BR2030-6 / BR2030-7

Carefully designed to meet customer needs.

Ball hitch 2 – 5 / 16" (optional).

Standard joystick control.

The joystick intuitive with colored buttons that and makes the system is easy to use.

You can make settings quickly and easily during the work.

The operator can change the spinning speed of the basket from the remote joystick, together with changing the working and windrow widths, according to his needs and working conditions.

In work mode, the Basket Rake cleans the ground perfectly and reaches a width of 30ft.

Tandem wheels and front and rear Castor wheels (standard).

Floatation feature.

Basket Rake in the work position.

Basket Rake in the transport position.

BASKET RAKE

BR2030-6 / BR2030-7

Discover the main features that make "Basket Rake" an excellence.

The remote control (joystick) for the electrohydraulic valve drives all the functions, including the basket speed.

High capacity with up to 30' working width, choice of 6 or 7 tine bar basket.

Full range of basket floatation delivers clean raking and reduces tine wear.

Standard front and rear castor wheel enhance ground following ability.

Walking-beam tandem axles deliver a smoother ride and cleaner raking.
