A Seeder for Every Application

Our Unique Metering System allows the Vari-Slice to plant a wide variety of seeds:

- Bermuda
- Alfalfa
- Timothy
 - Rye
 - Oats

Our Optional, Patented "Positive Feed Agitator System" is designed to plant Native (Warm Season Grasses) This system is available in a second box, mounted alongside the standard Primary Seedbox. Units with box a Primary and a Warm Season Grass Box will plant virtually any seed variety wanted.

- Widths Available = 3', 4', 5', 6', and 8'
- 3-Point (Cat I/II); Optional pull kits available
- Optional Legume Box
- Ground-Driven, by Rear Cultipacker
