

Kelly CL2 Disc Chain

A powerful disc for rough conditions and heavy soils

The CL2 Disc Chain consists of a concave, replaceable disc mounted in a heavy cast steel boss with a hook and eye link together, which makes service and replacement easy and cost efficient.

The design of the CL2 Disc provides penetration into the toughest of soils while the weight and shape of the boss keeps the disc cutting and controls the working depth, making it our most powerful tool.

Made for heavy residue management and reliable weed control, the CL2 Disc Chain is the perfect addition to your Kelly Tillage System.

Weight: 75lb/ft
Spacing: 8"
